Re: The History of Tea

Lena:

On behalf of the Executive of the Caledon East and District Historical Society I want to thank you for speaking to our January meeting.

The evening was thoroughly enjoyed by the 35 plus people who attended. Your extensive knowledge of tea, its history, different varieties, health benefits and all of its functions, was a great learning opportunity for all. Your presentation style is very informative without being too technical and your touches of humour make it a delightful experience.

Thank you also for sharing samples of your herbal teas. Many peoples expressed their intention of visiting your Tea Room in the near future to learn and experience more.

Congratulations on becoming the first Tea Master in the Province of Ontario!

All the best in your future endeavours.

Sincerely,

Donna Davies
Director
